William Blake

William Blake by Thomas Phillips © National Portrait Gallery, London

Name	William Blake
Occupation	Poet, Artist, Printer
Born	28 November 1757, Soho, London, England
Died	12 August 1827, London, England
Literary period	Romantic
Genre	Romantic poetry

William Blake is famous today as an imaginative and original poet, painter, engraver and mystic. But his work, especially his poetry, was largely ignored during his own lifetime, and took many years to gain widespread appreciation.

The third of six children of a Soho hosier, William Blake lived and worked in London all his life. As a boy, he claimed to have seen 'bright angelic wings bespangling every bough like stars' in a tree on Peckham Rye, one of the earliest of many visions. In 1772, he was apprenticed to the distinguished printmaker James Basire, who extended his intellectual and artistic education. Three years of drawing murals and monuments in Westminster Abbey fed a fascination with history and medieval art.
